**Overall Recommendation:**

☒ **Recommended as Basal**

**Overall Strengths, Weaknesses, Comments:**

This basal makes an effort to align to Kentucky's Big Ideas in Science, however, Sound is included in Big Idea 1 instead of Big Idea 2. Biological Change, electricity, and properties of light are not addressed in this text, however, the teachers' guide indicates that they are covered in 2nd and 3rd grade. To convert this student text from a reading basal with no activities and minimal assessment to a science inquiry basal, the investigations in the teachers' guide and the Unit Resources folder in the "Free with Purchase" items must be utilized and implemented. Most of the essential materials needed for the investigations are provided, but a few will need to be obtained locally. Technology integration is weak and the videos and URLs are not provided.
